

Useful UCLA Faculty Research Websites

- UCLA ACCESS Graduate Program Faculty Website:
<http://www.uclaaccess.ucla.edu/pages/>

UCLA ACCESS is an umbrella graduate program that represents 12 Ph.D.-granting programs: Biological Chemistry; Cellular and Molecular Pathology; Chemistry and Biochemistry; Human Genetics; Molecular and Medical Pharmacology; Microbiology Immunology and Molecular Genetics; Molecular, Cell, and Developmental Biology; Molecular, Cellular, and Integrative Physiology; Molecular Biology; Molecular Toxicology; Oral Biology; and Neurobiology.

ACCESS is organized into interdepartmental research affinity groups spanning a wide spectrum of research areas. The affinity groups are: Biochemistry & Molecular Biology; Bioinformatics; Cell Biology; Cell Physiology & Biophysics; Developmental Biology; Gene Regulation; Gene-Environmental Interactions; Genetics & Genomics; Immunology; Microbial Pathogenesis; Molecular & Medical Pharmacology; Molecular Basis of Disease; Molecular Cellular & Integrative Physiology; Molecular Evolution & Computational Biology; Molecular Parasitology; Neurobiology; Plant Molecular Biology; Stem Cell Biology; Structural Biology & Proteomics; Tumor Cell Biology & Signal Transduction; Virology and Gene Therapy.
